Add Another Course

« Hide [Save »]

Notes:

- 4 slots are displayed initially, however more may be added by hitting "Add Another Course" at the bottom. Keep in mind that you will want to save occasionally while entering a transcript
- Credit will calculate automatically from Credit/Mark and will apply only to Credit Awarding grades as defined by the markset

Using Templates

Applied:

Notes:

- Existing track courses can be used as templates for creating new courses

Choosing A School

Using An Existing School

Entering an Unlisted school

Click on "Use Unlisted School" and the input changes to:

Notes:

- Unlisted schools are used only for that Course History entry. They are not added to the seschool table

Class Marks

Notes:
- Grades entered in the gradebook but not finalized will not show on this screen (see Baimai, Mariner Jean)
- Inactive students display yellow, but are treated as all other students. In this example, neither of them have a final grade, so no grade is shown
- Any grade entered by the office on this screen will be considered an overridden, final grade
- Overridden grades display in red
- Attendance can be shown or hidden
- If a teacher has finalized a grade, they are unable to change it in their gradebook. The office may uncheck final to allow the teacher to reenter the grade from their gradebook
